

AMSOIL Covers Ford Power Stroke® Diesel Niche

The Ford Power Stroke® diesel truck is the darling of the diesel world, and with more than two million on the road today, it is undoubtedly the most popular diesel pickup on the market. Its charms are derived partially from its looks, inherited from the Ford F-Series, the most popular line of trucks for the last 28 years. But these trucks owe most of their popularity to their high-horsepower, high-torque engines. Power Stroke® diesel engines have earned a solid reputation for power and durability since their introduction in 1994.

Modern-Day Hot Rods

Some people liken today's diesels, and Power Strokes® in particular, to the hot rods of the past. Not because diesel vehicles are known for their exceptional speed and inspiring appearance, but because they have such a devoted following of enthusiasts. There are many aftermarket and specialty products available exclusively for diesel vehicles. A quick search of the internet will turn up several sites dedicated to the Ford Power Stroke® diesel engine, and there is even a magazine devoted strictly to the Power Stroke®.

Distinct Advantage

AMSOIL offers many products for diesel engines, including a full range of diesel oils and drivetrain lubricants and some products marketed specifically to Ford Power Stroke® diesel owners. In fact, AMSOIL offers a few exclusive products that won't be found anywhere else, giving AMSOIL Dealers a distinct advantage over the competition.

EaO 88

The EaO-88 is the first cartridge style oil filter made with full synthetic media. This revolutionary new filter is the replace-

ment filter found on the highly popular Ford 6.0L Diesel pickup, and is only available from AMSOIL.

Donaldson 7.3L Power Stroke® Diesel Air Induction System

Replaces the present air intake system and provides unmatched performance and filtering efficiency on 1999 to 2003 model year Ford F-250 to F-550 Super Duty trucks and SUVs with 7.3L Power Stroke® Diesel engines. This air induction system is the same aftermarket air induction system offered by Ford. No other company carries this air induction system.

AMSOIL PowerCore® Air Filters

The rugged structure of PowerCore filters features an innovative, layered, fluted media, and is made by Donaldson. AMSOIL PowerCore® Air Filters are available for the Ford 6.0L Power Stroke® engine.

Diesel Additives

AMSOIL offers Diesel Fuel Additive Concentrate to lower diesel fuel gel points by 20° to 35°F. It improves the performance, fuel efficiency and longevity of diesel engines while reducing deposits, black smoke, emissions and injector wear. AMSOIL Cetane Boost Diesel

Fuel Additive improves combustion efficiency to increase power in diesel engines. It raises Cetane three to seven numbers, improving low-temperature starting, fuel ignition quality and reliability. AMSOIL Diesel Fuel Modifier improves combustion, fuel efficiency, cold-weather starting, power and performance.
